Creating a talent pool which is industry ready

TCS iON in collaboration with TNSDC (Tamil Nadu Skill Development Corporation) shall be imparting quality skill training to the youth of Tamil Nadu under the **Naan Mudhalvan Scheme** launched by the **Hon'ble Chief Minister** in March 2022. Through this ambitious scheme, career enhancement skills along with academic guidance will be provided to the aspirational students in Government-run and State educational institutions of Tamil Nadu.

TCS iON shall be facilitating online courses in emerging technologies, thereby improving the employability and livelihood opportunities for the youth of Tamil Nadu and make them at par with the industry standards.

Digital Learning Programs

- Data analytics and reporting
- Machine learning for real-world application
- Applied cloud computing
- Augmented reality development and its applications
- Intelligent game design and its applications
- Practical approach to cyber security
- Advanced cyber security - an application approach
- Artificial intelligence for real-world application
- IoT and its applications using raspberry pi
- Practical approach to data mining and analytics
- Social media and text analytics

Pre-screening Assessment:

A pre-screening will be conducted for 10,000 candidates through TCS National Qualifier Test (NQT) to further select 2500 candidates to offer Digital Learning Programs in the emerging technology areas. The TCS NQT will evaluate students on their Cognitive Skills (verbal, reasoning, numerical) and Attitudinal Skills (work styles, personality traits). This test shall be conducted in an online mode.
